Emulated Nexus 5X, Simulated Slow 4G network

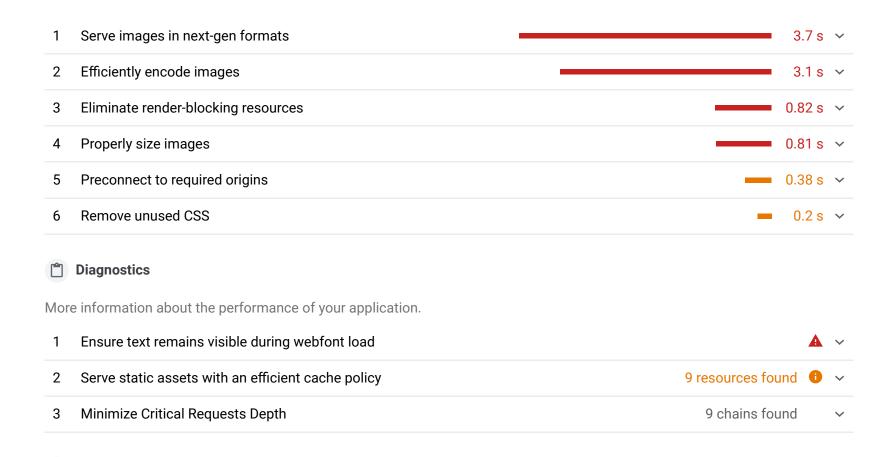

Opportunities

These optimizations can speed up your page load.

Opportunity Estimated Savings

Accessibility

✓ Passed audits

These checks highlight opportunities to <u>improve the accessibility of your web app</u>. Only a subset of accessibility issues can be automatically detected so manual testing is also encouraged.

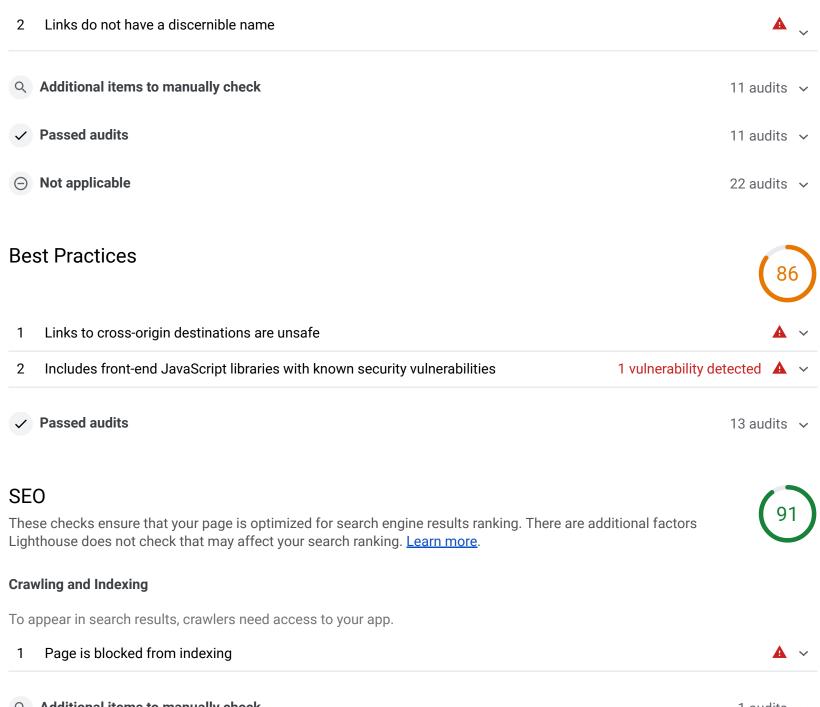

13 audits 🗸

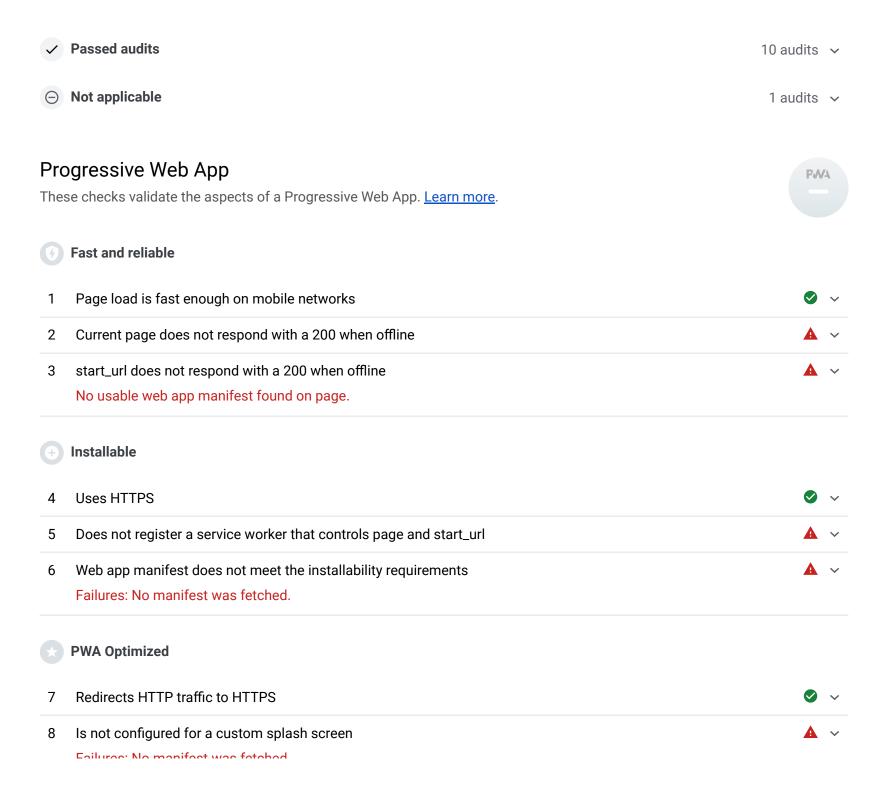

Names and labels

These are opportunities to improve the semantics of the controls in your application. This may enhance the experience for users of assistive technology, like a screen reader.

1 <frame> or <iframe> elements do not have a title

9 Does not set an address-bar theme color
Failures: No manifest was fetched, No `<meta name="theme-color">` tag found.

10 Content is sized correctly for the viewport

11 Has a <meta name="viewport"> tag with width or initial-scale

12 Contains some content when JavaScript is not available

Q Additional items to manually check
